

Twin Cities Support Group for Persons with Lewy Body Dementia

Support Group Sessions: First Wednesday of the month, 10:00 - 11:30 am

Asbury Room 2A & 2B, Centennial United Methodist Church, 1524 W. County Rd C2, Roseville, MN

Persons in the early stages of LBD who would benefit from communicating with others about living with this disease are welcome to attend. Our goal is to provide mutual support and companionship as we share experiences and resources to help us navigate the challenges of Lewy Body Dementia. Caregivers are also invited, and may occasionally meet in a separate area of the same room during a portion of the meeting. (Persons who may need assistance during the meeting should be accompanied by a caregiver.)

Paula Biever and Jeanne Schwietz serve as the support group facilitators. Paula and her husband Erik have been the facilitators of the MN E Metro LBD Caregiver Support Group since 2012. Jeanne was one of the founding members of that support group which was started in 2006. Paula is also a volunteer with the LBD Association and a member of the Roseville Alzheimer's/Dementia Community Action Team.

For more information or to be placed on the support group emailing list, email paula.biever@gmail.com or call 651-641-0130.
